Congressman Bart Stupak: Tax Rebate to Arrive Soon

Below is a chart that outlines what you can expect to receive as a rebate. If your situation is different than these, please consult the IRS website at www.irs.gov for more information.

If you are...	...you will receive
Single, earning less than \$75,000	\$ 300 to 600
for each child under 17	\$ 300
Married, earning less than \$150,000	\$ 600 to 1,200
for each child under 17	\$ 300

If you have any questions about your rebate,
please visit my website at www.house.gov/stupak

for Michigan
Families, Achieving Results**

Congressman Bart Stupak is Achieving Results for Michigan Families

Congressman Bart Stupak talks to constituents about current issues at a town hall meeting.

Putting More Money in Your Pocket

Congressman Stupak helped kick-start the economy by supporting the bipartisan economic stimulus legislation, which

authorized tax rebates of up to \$600 per individual and \$1,200 per couple. Families with children will receive an additional \$300 per child. The Treasury Department will start sending rebate checks in May.

Here's who else is helped by the economic stimulus package:

- **Millions of seniors and thousands of disabled veterans** who receive at least \$3,000 in Social Security benefits.
- **Families facing foreclosure** can apply for temporary loan opportunity expansions. Congress has also increased loan limits to assist families through loans with Fannie Mae, Freddie Mac and the Federal Housing Administration.
- **Small businesses** will receive tax breaks on capital investments and purchased equipment.

Keeping Our Food Safe and Our Families Healthy

Recent cases of botulism in beans, salmonella in peanut butter and E.coli in spinach are all signs of a disturbing trend that threaten our health and national security.

That's why Congressman Stupak, Chairman of the Oversight and Investigations Subcommittee of the House Energy and Commerce Committee, is committed to ensuring our food is safe for our families. He has held hearings looking at more than 100 food recalls in the past year, including melamine contamination from China and E. coli contamination in our produce. He has also put pressure on the FDA to increase inspections abroad and monitor imported food and drugs from China.

In his role as chairman, Congressman Stupak is changing the way Washington works, through increased transparency in government agencies and by holding big business accountable.

Stopping Telemarketers' Harassment

Congressman Stupak fought for and passed legislation to make permanent the Do-Not-Call Registry, which prevents telemarketers from calling consumers' homes. The federal Do-Not-Call-Registry is one of the most successful government programs ever created. Since the registry's inception, consumers have registered more than 132 million home and mobile telephone numbers to the list.

Before this law was passed, consumers were going to have to re-register their phone numbers in June 2008. By extending the registry without requiring individuals to repeatedly re-register, this bill will save

consumers from needless hassle and potential fraud.

If you have not already done so, you can register at www.donotcall.gov or call 1-888-382-1222.
